agriculture - the base of cultivation
and food production

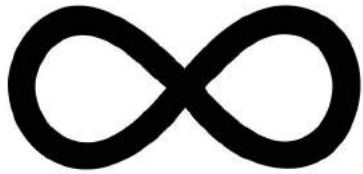

Circle representing
wholesome / 360° / complete /
moral / pure / natural

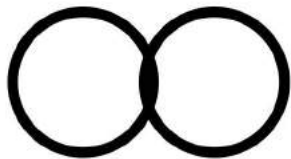

OTHER
ALTERNATIVES

ELEMENTS
OF THE LOGO

The circles sit side by side implying equality between these opposing forces, with the connecting point in the center the convergent point. The symbol represents equilibrium or the balance of various forces.

Circle representing wholesome / 360° / complete / moral / pure / natural

ELEMENTS
OF THE LOGO

The dome of the mosque is a unique representation of the Arabic architecture. The shape has been used as an inspiration for this logo.

The shape has been inverted and made to form a border encasing the typography. Simple yet a strong element for a logo.
